Design: UI/UX (Figma), Responsive Design

Core: Web Developer, Problem Solving, System Thinking

EXPERIENCE

UI/UX Developer Trainee — Chetu India, Noida Jan 2026 – Present

- Developed **responsive and reusable UI components** using React, improving consistency across applications
- Translated design requirements into **scalable frontend architecture** for maintainability
- Improved user experience by applying **UI/UX best practices and accessibility standards**

Web Developer Intern — Celebrino Dehradun

Jul 2025 – Aug 2025

- Developed responsive UI and integrated **REST APIs** for production applications
- Improved frontend performance, reducing load time and enhancing user interaction

Web Developer Intern — Octanet Pvt Ltd (Remote)

Jul 2024 – Aug 2024

- Built optimized websites using modern frontend practices and improved load performance

PROJECTS

Eventra — AI Smart Event Management System

- Built a scalable and responsive event management platform using React
- Developed reusable UI components, routing, and efficient state management
- Integrated REST APIs for real-time event registration, attendance tracking, and dashboard analytics
- Implemented QR-based ticket system and role-based access control
- Integrated payment gateway (test mode) using API calls for event bookings

EduBridge — Home Tuition Finder Platform

- Developed a platform to connect students with home tuition teachers based on requirements
- Built responsive UI using React with structured sections for teachers, courses, and user interaction
- Integrated backend APIs for dynamic teacher listing and data handling
- Implemented payment gateway (test integration) via API for booking sessions

BullGains — Financial/Trading Platform (Freelance)

- Developing a responsive financial platform for stock insights and user interaction
- Built modern UI using React with focus on clean design, UX, and performance
- Implemented dashboards, market content sections, and interactive components
- Integrated structured data flow for financial insights and user engagement
- Delivered as a freelance project for a SEBI-registered financial services client
